From a conference with a representative of the United Electric Company we learned that so long as the Central Massachusetts Electric Company controlled the local field, the United Electric Company would not discuss any possibilities as regards electric service to East Langmeadow.

From the Central Massachusetts Electric Company we learned that in view of the investment involved, the large area covered, and the consequent excessive cost of upkeep, they did not recommend the present rates for electric service, excessive. They say they value the patronage of East Langmeadow and wish to give the best service possible and whenever increased patronage and economies in upkeep warrant, further reductions in charges will be made

TOWN OF EAST LONGMEADOW

In the Year 1928

BY-LAWS relating to the limiting of buildings and premises, according to their use or construction to specified parts of the town.

SECTION 1—DISTRICTS

For the purpose of these By-Laws, the Town of East Longmeadow is hereby divided into four classes of districts, as follows:

1. Residence A Districts.
2. Residence B Districts.
3. Business Districts.
4. Industrial Districts.

The boundaries of these districts are hereby established as shown on the Building Zone Map which accompanies and is hereby declared to be a part of these By-Laws; provided, however, that the Zoning of any lot of land may be changed at any Town Meeting upon petition in writing therefor, filed with the Town Clerk, publication of such petition at least once in one of the Springfield Daily Papers, to be designated by the Town Clerk, and a hearing thereon held not less than seven (7) days after the first such publication, the expense of such publication to be paid by the Petitioner and the Warrant for such Meeting to include an article describing in general terms all such petitions to be voted on.

SECTION 2—DEFINITIONS

Certain words in these By-Laws are defined for the purposes thereof as follows:

(a) A "lot" is any lot or plot under one ownership occupied or intended to be occupied by one building or one unit group of buildings and its accessory buildings and uses, including such open spaces as are provided or as are required by these By-Laws.

(b) The "curb level" is the average level of the curb along the street frontage of the building. Where the lot faces on two or more streets the "curb level" is the average level of the curb on that street frontage where the average curb level is highest. Where no curb level has been established, or wherever the average ground level of that portion of the lot which is within ten feet of a wall of a building is higher than the curb level, such average ground level shall be considered to be the curb level for the purposes of these By-Laws.

(c) A "street line" is the dividing line between a street and a lot.

(d) The "height" of a building or of a wall shall be measured above the curb level. The height of a building is the mean elevation above the curb level of the upper surface of the highest main roof. The height of a wall is the average height over all. No story shall be deemed a first story if its floor level is more than four feet below the curb level; except that if any basement or cellar is used for residence purposes by more than one person, such basement or cellar shall be deemed to be the first story.

(e) An "attic" is the space between the top story and a pitched roof. A "ground" story or "first" story shall mean the lowest story entirely above the curb level.

(f) A "rear lot line" is the lot line opposite to the street line or in the case of a corner lot, the rear lot line may be elected by the owner.

(g) The "depth of a lot" is the mean distance from a street line of the lot to its opposite rear line, measured in the mean general direction of the side lines of the lot. The width of a lot is its mean width measured at right angles to its depth.

(h) A "front yard" is a required open unoccupied space within and extending the full width of the lot, between the street line and the parts of the building nearest to such street line.

(i) A "side yard" is a required open unoccupied space within the lot between a side lot line, not a street line, and the parts of the building nearest to such side lot line. Such a side yard may extend through for its required width from the street line or the front yard to the rear yard or its equivalent or to another street.

(j) A "rear yard" is a required open unoccupied space, the full width of the lot, between the rear wall of the building throughout its height and the rear line of the lot, or where the rear lot line borders on a public street or dedicated alley, to the center line of such street or alley. In the case of a triangular lot with only one side fronting on a street, the rear yard shall be the open unoccupied space between the rear wall of the building and a line half way between such rear wall and the point of intersection of the side lines of the lot.

(k) The "minimum distance" and the "average distance" from a building to a lot line are always measured at right angles to such line.

(l) The "length of a wall" of a building in relation to a lot or street line is the length of a wall which makes an angle of forty-five (45) degrees or less with such lot or street line.

SECTION 3—GENERAL

(j) BUSINESS ADJACENT TO RESIDENCE:—In any Business District every building which is within fifty (50) feet of a Residence District shall set back from the street line a distance equal to at least one-half of that setback required for ground story parts of a principal building on the adjoining lot in the Residence District.

(k) PROJECTIONS AND ENCROACHMENTS IN YARDS:—Except as herein specified, yards required by these By-Laws shall be open and unobstructed to the sky. Cornices, leaders, belt courses, sills and similar ornamental features may project six inches over any yard.

Governor, Lieutenant Governor, Secretary, Treasurer, Auditor, Attorney General, Senator in Congress, Congressman, Councillor, Senator, Representatives in General Court (2), Clerk of Courts, Register of Deeds and Insolvency, County Commissioner, Sheriff, County Treasurer, Register of Probate and Insolvency, County Commissioners (3), County Treasurer, Sheriff (to fill vacancy). Question No. 1

Proposed Amendment to the Constitution.

Shall an amendment to the Constitution relative to the apportionment of senatorial, representative and congressional districts, further described as follows:

The proposed amendment of the Constitution provides for the annulment of Article XXI of the Articles of Amendment to the Constitution and the substitution therefor of a new Article XXI and for the annulment of Article XXII of the Articles of Amendment of the Constitution and the substitution therefor of a new Article XXII. The proposed amendment embodies in substance the following changes in and additions to said Articles XXI and XXII:

1. In proposed Article XXI, towns of twelve thousand inhabitants or more may be divided in forming representative districts, towns in such towns as it deems. In taking the census the special enumeration of legal voters shall specify the number residing north and south of each town. Under existing Article XXI no towns may be divided and no specification of the number of voters in a precinct is required.

5. The division of a county into senatorial districts and the apportionment of senators to districts therein is to be made by the county commissioners or other body acting as such or in lieu thereof, such board of special commissioners in each county as may for that purpose be provided by law." Under Article XLI as it now stands the division and apportionment is made by "the mayor and aldermen of the city of Boston, the county commissioners of the counties than Suffolk, — or in lieu of the mayor and aldermen of the city of Boston, or of the county commissioners in each county other than Suffolk, such board of special commissioners in each county, to be elected by the people of the county, or of the towns therein, as may for that purpose be elected by law." The time for assembling such commissioners, board or body for the purpose of making such division and apportionment is changed from the first Tuesday of August next after each assignment of the legislature of the number of representatives to each county, to a time within sixty days after certification by the Secretary of the Commonwealth to such commissioners' board or body of the number so assigned or within such other time as the Legislature may by law provide.

3. Under the proposed Article, each special enumeration shall be the basis for determining the districts for senator, representative and councillor, for the ten-year period beginning in the fourth January following said special enumeration and the existing provision of districts is to remain in effect until January, 1934. Under the existing amendments the ten-year period is the period between the taking of each census. Thus, the next redivision based upon the next census in 1935 would, under the proposed Articles, affect those elected in 1938 to hold office beginning in January, 1939, instead of affecting those elected in 1936 to hold office beginning in January, 1937. Under existing amendments representation of towns in districts begins in January of the second year after each ten-year census, whereas under the proposed article it would begin in January of

the fourth paragraph) the number of representatives, 240, senators, 40, and councillors (8) is not changed.

"If the legislature may limit the time within which a number of representatives, councillors or senators actually elected may be questioned by judicial proceedings, the proposed amendments contain no provision that itself limits or authorizes the Legislature to limit such time.

which received in a joint session of the two Houses held May 4, 1915, 125 votes in the affirmative and 48 in the negative; and at a joint session of the two Houses held May 5, 1915, received 135 votes in the affirmative and 38 in the negative, be approved."

Yes
No.

Question No. 2

Proposed by Initiative Petition

Shall the proposed law which amends the General Laws by striking out Chapter 138, Section 2A which section provides that, "No person shall manufacture, transport on any craft, vessel, craft or vehicle, import or export spirituous or intoxicating liquor as defined by section three, or certain non intoxicating beverages as defined by section one, unless in each instance he shall have obtained the same by the authority granted thereon by the laws of the United States and the regulations made thereunder," which law was disapproved in the House of Representatives by a vote of 110 in the affirmative and 122 in the negative and in the Senate by a vote of eleven in the affirmative and 26 in the negative, be approved?

Yes
No.

Question No. 3

Proposed by Initiative Petition

Shall the proposed law which amends General Laws, Chapter 131, by inserting therein a new section 1.0.0.1, which in substance makes it a misdemeanor punishable by a fine of fifty dollars for any person to use, set or maintain any trap or other device for the capture of furbearing animals which is likely to cause continued suffering to an animal caught therein and which is not designed to kill the animal at once or take it alive unhurt, except traps or other devices for protection against snakes, set or maintained within fifty yards of any inhabited house or inhabited plot of land to the use of the owner or occupant thereof, may be determined,

which law was disapproved in the Senate by a vote of 12 in the affirmative and 24 in the negative, and in the House of Representatives by a vote of 28 in the affirmative and 167 in the negative, to be approved.

The vote for the officers to be elected and the vote on the questions submitted all to be on one ballot.

Report of Honor Roll Committee

Mr Moderator and fellow-citizens:- At the annual meeting of the Town last February it was voted that the moderator should appoint a Committee composed of five citizens to investigate and prepare a report with recommendations for providing an Honor Roll to display publicly the names of those from our Town who are serving in the armed forces; further, that this Committee should report at the next annual Town Meeting in February, 1944. Accordingly the Moderator named the following: Mrs John Dion - Mrs Julius J. Sorel - Mr Edward Christianson - Mr Victor De Angelo - and Mr Wallace E. Dibble, Chairman. Here let us say that we of the Committee, welcome the opportunity.

Special Town Meeting, October 13, 1943 (Cont'd)
offered by this Special Town Meeting for taking earlier action on this project that could otherwise be possible, because reports have been current that an Honor Roll might well have been provided long since. Our Committee has met, has studied the project assigned to it and is pleased to report as follows:- Careful consideration has been given to the type and location of a possible structure upon which to display the 300 or more names on the list, and reference was made to several other Towns where such displays have been worked out and established. Mrs Sorel of the Committee has completed an accurate list of those who at present are eligible for mention on this roll. The Committee recommends as follows:- That a simple but attractive display board or structure be obtained and erected, upon which shall appear the Words Honor Roll, Town of East Longmeadow, Massachusetts, the names of the different branches of the services, and, upon removable panels, the names of the men and women from our Town who are now in those services;- Further, that this display be about 9 feet long and 7 feet high, and that it be located directly in front of the evergreen tree which is on the lawn in front of the Town Hall. The Committee examined many possible sites and the one selected will offer the best opportunity for such a display to be seen by the greater number of passer-by;- Further, that the list of names prepared by Mrs Sorel, subject of course, to additions and corrections from time to time, be officially adopted as the "Honor Roll" of our Town, and that it be checked and used upon the display board when such board is provided. Further, that a sum not to exceed $700.00 be appropriated at this meeting to carry out this project. We have ascertained that such displays in several other towns have cost from a

Special Town Meeting, October 13, 1943 (Cont'd)

minimum of $500.00 to something over $2,500.00, depending upon the size, the number of names inscribed, the character of the ornamentation, painting, etc. We feel that aura can and should be very simple but very attractive at relatively low cost. Finally, that a Committee of five citizens be appointed by the Moderator to carry out the provisions of these recommendations if adopted. Our Committee is grateful for the opportunity of serving in this connection.

Respectfully submitted for
The Honor Roll Committee
By Wallace E. Dibble,
Chairman.

Mr. Moderator. In order to get this matter properly before the Town for action, I make the adoption of the recommendations just presented by The Honor Roll Committee.

Passed.

It was also voted that the Moderator appoint a committee of three to arrange for a proper celebration to commemorate the fiftieth anniversary of our town and that this committee shall have power to add to its number until such time as they feel that the committee is large enough to properly carry out their plans. It being understood that no appropriations will be asked for, until our next meeting when plans will be fully explained.

Committee of 3.

Article 14.
